Dear Peter,

Do you remember that we've talked about the famous politician Sima Guang?

Today, I'd like to tell you a story about him when he was still a child. This story

is very popular in China.

On one occasion, Sima Guang was playing with his friends in the backyard. There was a large water tank in the yard. As the kids were playing, one child accidentally fell into the giant tank. When the child was drowning, other children were so frightened that they started weeping and crying for their parents. Different from all the other kids, Sima Guang kept calm and picked up a big stone from the ground. He then used all his strength to throw the stone at the tank. “Bang!” the water tank broke. Water flowed out of the tank and the kid was saved.

Sima Guang was a wise man and a good example for us to follow.

How to Stay Safe at School

Do you know that our school life could be dangerous if we are not careful enough? For example, one day, two students quarrelled with each other over a little thing. Suddenly, they began to fight. One of them was badly hurt because the other took a knife.

In order to stay safe at school, firstly, schools should teach students to respect each other. Secondly, all students must not be allowed to carry any harmful things to school because they may hurt others. Finally, I think parents should teach children to be friendly to others.

We really must keep ourselves safe at school. Let's do it and make it possible.

I did a survey among my classmates about their views on whether parents can be their friends. According to the result, 45% of the students in our class think it impossible to make friends with their parents because their parents are always too busy to show their concern. At the same time, 55% of the students believe they can be friends with their parents. Their parents often talk with them like good friends at home.

In my opinion, it is natural for parents and children to become friends as long as they trust each other. Parents should spend more time with their children and share their feelings with them. In this way, they can have a close relationship with each other.

A Report on Weekend Activities

The English Club in our school invited me to do a survey on students' weekend activities. I find that around 40% of the students study by themselves at home. About 25% of them prefer to watch TV or listen to music. 20% of them like to chat online or play computer games, while 10% of them help their parents do housework. Only a small number of them go out for sports or travelling.

In my opinion, we should make good use of our time to learn more knowledge and develop our interests. We should also learn to relax, but I don't think it's a good idea to spend too much time watching TV, chatting online or playing computer games.

The Ways to Keep Healthy

Health is far more important than wealth. Good health enables us to enjoy our life and achieve what we hope for in our career. On the contrary, poor health leads

to nothing. How can we keep healthy? Here is some advice. Firstly, it is very important for us to eat more fruits and vegetables because they provide vitamins, and we have to keep a balanced diet. So we should avoid food with lots of sugar and fat. Secondly, we'd better exercise every day to make our bodies strong. Besides, we have to avoid too much pressure in study. Finally, we have to get rid of those bad habits that damage our health, such as playing computer games and staying up late. In conclusion, if we stick to the advice given above, we will lead a healthy life.

二、 This is a report on *Romeo and Juliet* by William Shakespeare, who is a famous English writer in the world.

This story has two main characters: Romeo and Juliet. It happens because of hate between two families and love between the two young people.

They love each other at first sight, but can not get blessing from their families. They even have to get married in secret. Juliet's father asks her to marry another nobleman. In order to refuse her father, she pretends that she is dead by drinking a potion. But that makes Romeo think that she is dead. He takes some poison and dies. When Juliet wakes up, she can't accept it and kills herself.

Their love makes the two families live in peace forever. The story is sad but full of love. It tells readers what true love is.

How Can Group Activities Help

Us Study English Better?

In English class, we often have group activities. But how can the activities help us study English better? First, we must make clear what the task is for each group and how it should be done. Second, each group member must play a different role and the whole group should cooperate well. At the same time, teachers should offer necessary help to each group during the activities. Finally, the activity results must be shared in class because they are our achievements.

In this way, we will probably study English better.

Ugly Duckling

It was a long time before Mother Duck's last egg broke. When Ugly Duckling was born, he looked very different from his brothers and sisters. He was much bigger than them and he was grey.

Because Ugly Duckling was so different, all the ducks bit him and pushed him away from their games. He became so unhappy that he cried sadly and flew away from the lake. As time went by, Ugly Duckling grew bigger and could fly much higher. One day, when he was resting on a pond, many other ducks swam close to him and said, "What a beautiful swan he is!" "Who is he?" When he heard this, he looked into the pond. Suddenly, he saw that he was no longer a terrible grey thing that nobody liked. His neck grew long and his body turned white. He became a swan!

My Favourite Gift Ever Received

Among all the presents that I have ever received, I like my diary best. I got it from my best friend on my birthday two years ago.

In the diary, there are many beautiful poems, which contain wisdom, sorrow and deep feelings of love. It is amazing that I love almost every poem. My friend wrote on the first page of the diary, “May you take down the beautiful memories of life and keep them as marks on the sand of time.”

I did write something special and important to me, and now the diary has become a record of my young life, and a memorial of the precious friendship between my friend and me.

Changes in Guangzhou City

These years, many changes have taken place in Guangzhou. Now I am going to introduce the changes in Guangzhou as follows.

First, the city is getting greener. All kinds of trees and flowers can be seen here and there. Also, houses are getting more and more beautiful. Many new modern buildings can be seen in the city, such as Canton Tower and Guangzhou Opera House. Moreover, streets are cleaned every day and the traffic goes more smoothly than before.

However, there are still some problems in Guangzhou. So let's think about how to make our city more and more beautiful in the future. Firstly I think we need to plant more trees and stop people from throwing away too much rubbish every day. Secondly, when we travel in the city, it is better for us to take the public

transportation like the subway, the BRT and so on. It can help reduce the air pollution.

Dear Editor,

I'm a middle school student named Wang Ping. Recently, we often have to buy presents for our classmates' birthdays. And we sometimes send each other expensive presents, which causes us to think whether students should spend so much money on birthday gifts.

There are two different views. Some students think it provides us with a good chance to communicate with each other and develop our friendship. However, some other students think it's a waste of money and time and can lead to the bad habit of trying to keep up with the Joneses, which has a bad effect on our growth and studies. As far as I'm concerned, there are other better ways to show our love to our friends, such as making birthday cards or bookmarks on our own. After all, friendship is seen through the heart and can not be measured by money.

What do you think about it? I'm expecting your reply.

Yours,

Wang Ping

Dear Jane, you seem to be unlucky these days! Here are some suggestions for you.

Firstly, if you want to keep fit, you should have a balanced diet. For

example, you can eat more vegetables and fruits. Don't eat too much meat or junk food because they can make you fatter and fatter.

Secondly, don't stay up late, for you need to have enough sleep. Before going to bed, you can drink a glass of warm milk so that you can fall asleep more easily. Also, I suggest you do some sports every day, such as running and playing basketball.

Thirdly, when you have any problems, you can go to your teachers or your classmates for help. Don't be afraid of failing. Failure is the mother of success.

Come on, Jane! I hope you can have a happy life.

The programme which is called *A Bite of China* on CCTV is very popular these days. It introduces local cuisine from all over China. It not only tells us about how to cook the food and the long history of the food, but also tells us stories about people and food. Men and women, old and young, all like to watch the programme. Many foreigners are also very interested in it. I like this programme because I can learn some ways of cooking and I think we Chinese people are very clever.
